PROJECT EXPERIENCE

Infinite Minesweeper | *Luau, GNU, Linux, Git*

April 2022–Present

- Develop procedurally generated multiplayer Minesweeper clone, earning 1,200,000+ plays for the Roblox platform
- Design core loop to maximize engagement, achieving top 10% day 1 and day 7 retention metrics
- Automate backups and recovery to maintain 470,000+ database entries, preventing data loss
- Refactor codebase with native code generation, improving server performance by 100%
- Optimize network serialization, reducing server-to-client bandwidth usage by 60%
- Communicate with users about progress and issue reports, informing design decisions

Anti-Wallhop | *Luau, Git*

June 2024

- Resolved platform-wide exploit by reverse-engineering and debugging character floor detection
- Published open-source package to implement in application with 560,000,000+ all-time users
- Collaborated with project lead to integrate solution, enhancing gameplay for ~500 concurrent users and ~61,000 daily active users

ORGANIZATIONS

Q+ Honors Caucus | *Member*

August 2025–Present

- Design stickers for Honors Pride, communicating with leadership to incorporate feedback
- Correspond with committee members to assist with event planning

Association for Computing Machinery | *Member*

August 2025–Present

- Develop career skills by attending meetings focused on career preparation and networking

Academic Team | *Member*

August 2025–Present

- Assist local tournaments by reading questions and moderating matches

VOLUNTEER EXPERIENCE

Faith Outreach Ministries, Myrtle Beach, SC

2024–2025

- Facilitated rapid distribution of food donations, serving 200+ families/month

Lowcountry Food Bank, Myrtle Beach, SC

2023

- Organized donations into canned and dry goods to distribute across 3 counties
